

# INTERIM REPORT Q3 2022 

## . )

O

.

|  |
| :---: |
| $\times 1$ |

## Q3 SUMMARY

## Ongoing macro challenges

Online market declined slightly during the quarter. The general economic situation, incl Inflation, energy shocks, and rising interest rates impact customer buying behavior.

## Continued Gross margin squeeze

Shipping from Asia, raw material and supplies cost increases and strengthened USD impacting margin negatively. Compensation from price increases to customer was limited, due to general demand and overstock situation in the market.

## Execution of financial improvement program started

Program started with primary focus to restore gross margin, but also to improve marketing efficiency and working capital.

## Net revenue growth of 3\%

Net revenue in local currencies was flat in Q3. Campaigning and improved assortment compensated for the weak market.

## Weak adjusted EBIT margin

Decline entirely driven by gross margin development, as cost increases were not fully forwarded to customers due to low demand and overstock in market - focus on cash generating actions.

## Significantly strengthened balance sheet

New share issue finalised in July. Fully subscribed, amounting to SEKm
347. Bank loans repaid and net cash end of Q3 was SEKm 115.

## REVENUE CAGR SINCE PRE-PANDEMIC

Gradually declining growth

- Net Revenue (SEKm)

## KPI HIGHLIGHTS

Customer satisfaction remain on high level
$\square$ Aggregated Trustpilot scores

Continued private brand growth
$\square$ Net Revenue, Private brand (SEKm)

## KPI HIGHLIGHTS (CONTINUED)

## Active customers growing

Active customers LTM (000), end of period
## Increasing AOV

$\square$ Number of orders (000)

- Average order value (SEK)

## GROUP FINANCIALS

## Challenging market affecting revenue and margins

Net Revenue (SEKm)Profit after variable costs (SEKm)Profit after variable costs (\%)

## Comments

- Q3 2022 revenue growth affected by: Negative development in the market.
- Order volume -4\% vs. LY.
- AOV +4\% (local currencies) vs. LY, partly driven by price increases especially within private brands.
Price increases however not in line with cost increases, leading to lower profit after variable costs.
- Similar development between Offroad and Onroad segments.

## ADJUSTED EBIT

## COGS increases not compensated by customer price increases

Adjusted EBIT (SEKm)Adjusted EBIT margin (\%)

## Comments

- Q3 2022 low profitability mainly explained by: - Adjusted EBIT margin Q3 2022, -3.1ppt lower than same period 2021. Negative development driven by Gross margin that was $-4.9 p p t$ vs. LY. Lower gross margin driven by shipping costs from Asia, additional campaign activities to reduce inventory, purchase price increases and strengthened USD. Customer prices increasing slowly but not enough to compensate for cost increases.
- Variable cost in relation to Net revenue, reduced due to decreased spending on performance marketing.
- Overhead costs in level with last year, after adjustment for one-off negative effect in costs Q3 2021.
- Q3 2022 EBIT was affected in by cost of 6M, reported as adjustment, which includes external costs for strategic initiatives.

## ADJUSTED EBIT MARGIN BRIDGE

## Negative gross margin development affected Q3 EBIT margin

## Comments

- Gross Margin:
- Increased shipping costs from Asia, from SEKm 18 LY to SEKm 24.
- Negative Fx-revaluation of working capital items related to COGS. From SEKm 0 LY to SEKm -2.
- Other gross margin effects mainly related to increased purchasing prices (raw material etc) but also negative Fx-effects.
- The negative Fx-effect in Q3 (excl. Fxrevaluation on working capital items) was estimated to SEKm $\sim 2$, mainly driven by strengthened USD from second half of 2021.
- Direct costs:

Decrease driven by better performance marketing efficiency.

- Other costs:
- Continued cost management focus.
- Temporary adjustment 2021, which affected the cost negatively.

## SHIPPING COSTS

## COGS related to shipping costs from Asia

In-freight (SEKm)- Cost in relation to Net revenue (\%)

## Comments

- Shipping prices have decreased significantly since peak levels 2021. Prices expected to decrease further coming quarter.

Shipping costs are charged in the P\&L when the product is sold. This means that the high shipping prices from Q4 2021 and Q1 2022 affect the COGS and P\&L several quarters after shipment.

- Cost expected to be on high levels in P\&L coming quarters.

## NET WORKING CAPITAL DEVELOPMENT

Stock developments primary driver for changes of NWC in recent quartersNet working capital (NWC)

- Net working capital, \% of Net Revenue, LTM

## Comments

- Net working capital (NWC) increased in Q3 2022 vs. Q3 2021, mainly driven by: Total inventory increased with SEKm 26. Short term liabilities decreased by SEKm 58.

## NET WORKING CAPITAL IN DETAIL

## Earlier campaign season start this year vs. 2021 increased Net working capital level end of September

## FINANCIAL POSITION

Debt-free, net cash positive and a solid equity position

| SEKm (unless stated otherwise) | 30 Sep |
| :--- | ---: |
|  | 2022 |

SEKm (unless stated otherwise)
2022
Interest-bearing liabilities ${ }^{1}$
115
Net debt excl. IFRS $16 \quad-115$

Equity
740

I Interest-bearing liabilities does not include leasing liabilities.

## Comments

- Cash positive since new share issue.
- Solid equity position of SEKm 740.

## GROSS MARGIN SQUEEZE DRIVING PROFITABILITY DECLINE

## Adjusted EBIT - Q3 YTD 2021 vs 2022

## Comments

## Gross margin

- Shipping costs from Asia increased from SEKm 51M 2021 to SEKm 752022. Effect on Gross margin -1.7\%.
- Purchasing price increases driven by higher cost for raw material, energy, and manufacturing labour.
- Overstock in the market driving markdowns and slowing down price increases vis á vis customers.

## Other

- Negative effect driven by increased variable costs from mainly outgoing freight and packaging material. Cost driven by increased cost for fuel and cardboard.
- Overhead in relation to Net revenue on same level as last year.

## KEY LEVERS TO RESTORE LONG-TERM PROFITABILITY

## Shipping

- Assumption of shipping prices close to level before turbulence 2021.

## Purchasing

- Market price for raw materials going down
- Action program to negotiate purchasing prices

## Pricing

- Implementation of new pricing tool
- Less price pressure when overstock situation in market has been normalised
- Assortment optimisation to reduce low-value tail products

## Marketing

- Increased efficiency within performance marketing and less push on ROI. Improvement during Q3 2022.

## Scale

- Base organisation and systems in place. Built to handle growth at low marginal cost.

## Please note that the Financial outcome is highly dependent on external factors as market demand, inflation, Fx-development etc.

## THREE PRIORITIES NEXT QUARTERS

## 1. Maintain strong cash position

- Prioritise sales, at the cost of some gross margin points, if required
- Adapt purchasing volumes to market development

## 2. Execute program to improve financial performance

- Gross margin improvement from supplier negotiations and customer pricing
- Marketing and freight cost efficiency
- Working capital improvement

## 3. Ensure scale in overhead costs

- Continue to simplify the business and streamline routines, processes and systems

## THIS IS PIERCE

## Online leader in a fragmented niche

- A pan-European company with local presence in 16 markets
- Large share of private brands makes offering unique
- Headquartered in Stockholm, a centralized warehouse in Szczecin, Poland and customer service in Barcelona. Approximately $420^{1)}$ employees

Net revenue (SEKm)

$\square$ Net Revenue (SEKm)Profit after variable costs (SEKm)Profit after variable costs (\%)

Stronger offering drives growth YTD

- Net Revenue (SEKm)Profit after variable costs (SEKm)Profit after variable costs (\%)

growth

Comments

## CASH GENERATION

Inventory reduction offset by mainly lower short-term liabilities

Cash generation Q3 2022

## Comments

- Total inventory increased from SEKm 490 Q2 to SEKm 504 Q3.
- Other net working capital increased mainly due to lower short-term liabilities driven by less purchases.

## FINANCIAL TARGETS

Medium- and long-term financial targets
